Why Partner with the California Transit Association?

The California Transit Association's Annual Conference Fall Conference & Expo is the largest transit industry gathering on the West Coast, bringing together approximately 1,000 transit professionals and partner companies that provide solutions, services, and support for transportation organizations to address today's challenges and leverage tomorrow's opportunities.

The conference offers a wide range of exhibitor, sponsorship, and branding opportunities designed to expand your customer base and strengthen your relationships with key decision-makers in California public transit agencies.

California is one of the most transit-intensive states in the nation, and the vast majority of the service is provided by our members. Secure your opportunity to showcase your company and products in beautiful Monterey.

"I've attended this conference for decades, and I can say firsthand this is where the industry's brightest minds, boldest ideas, and strongest partnerships come together - it's an energizing, can't-miss experience that shapes the future of transit in California.

This year, it all unfolds in the stunning coastal setting of Monterey, making it as inspiring as it is impactful."

About the Association

The California Transit Association (Association) serves as the voice and advocate for transit in the Golden State. We are a member-driven organization with a powerful history of serving, preserving, and evolving the invaluable service of public transit, which is crucial to communities, now and for decades to come.

As the Governor and State Legislature make difficult decisions about policy and funding priorities, maintaining a strong, united voice for public transit at all bureaucratic levels is essential. We are that voice.

Guided by our Executive Committee, the Association's team of legislative advocates promotes multiyear transit funding and represents transit interests before the California State Legislature, the Governor, and regulatory agencies at the local, state, and federal levels.

We are champions, collaborators, thought leaders, and partners intently focused on advancing transit-friendly policy, protecting and increasing transit funding, and supporting a balanced transportation system.
